

All Cell Phones Call 911 FREE!

Effective December 1997, all cellular telephones are required to have carrier network access to make unlimited FREE 911 calls.

- Power up the phone.
- Dial 911.
- Select send and you will be connected immediately with the emergency dispatcher for 911.

Most phones can be easily programmed for 1 number calling for 911.

Some phones are already programmed for a long 9 (holding down the 9 button for a few moments) for instant contact with 911.

Put your old cell phone and charger in your car's glove compartment...!
